LMC

Gentle Handling Elevator

**Unmatched Performance,
Capacity, and Reliability**

The **LMC** Gentle Handling Elevator reflects the innovative spirit that defines our company. Designed for gentle product handling, the Gentle Handling Elevator delivers a continuous, smooth product flow, minimizing mechanical damage. We've enhanced the time-tested design to improve performance, simplify maintenance, and increase long-term reliability. The simple green-means-go gauge takes the guesswork out of tensioning your chain.

When innovation and reliability matter most, trust **LMC** to elevate your performance.
